

I wanted to comment on the proposal to expand LPFM service. I am a KLOVE listener on 91.1 in Denver and it has become a moral compass to our family. It is one of the few stations I have found that I can safely allow my children to listen to without being exposed to some of the trash other music promotes. We need all the positive influence our community can get these days. As a Social Worker for 20 years working with juvenile delinquents and abusive families, I see the value in supporting values. The national ability of KLOVE means I can find it most places across the country. If we lose that ability our community will be damaged. The fact that KLOVE is listener supported means that many folks are putting their money where their beliefs are and keep it alive to allow others the same opportunity to listen to great Christian music and news.

Please keep this in mind as you make your decisions, and don't lose our KLOVE stations in the process.

sincerely,
Penny Kidd
